

**TEXAS**  
Health and Human  
Services

**Texas Department of State  
Health Services**

Good morning,

THMP will be returning to 30 day fills for all medications and approving medications only up to 10 days before the current bottle of medication is completed starting Monday, October 12<sup>th</sup>.

This will be for orders processed on October 12<sup>th</sup>, regardless of when they were received.

The program has been providing an additional bottle for most 30 day fills and approving refills up to 20 days before the current medication supply is completed since March 13<sup>th</sup> as part of the COVID-19 response.

THMP is committed to the continued health and safety of our participants. Please share the following with your clients who are concerned about more frequent trips to the pharmacy:

1. Utilize medication delivery or medication pickup in a drive-thru whenever possible. If your pharmacy doesn't provide this, please contact THMP and we will help you switch to one that does.
2. Minimize trips to the pharmacy by asking your medical provider if you are a good candidate for 90 day fills and if your current medications are available from THMP as a 90 day fill. Your provider will need to submit a new MCF to change your fills to 90 days.

Thank you so much for all the work that you do!

Rachel A. Sanor,  
Manager, THMP
